

A hearing and vision screening record must be submitted to school officials before or no later than the first day of school. The hearing and vision screening can be completed anytime between the ages of 3 and before the child enters Kindergarten.

If your child has been previously screened at the Health Department or at their preschool please call (989) 832-6673 to obtain a copy of their record. You may leave a message with your child's first and last name, date of birth and school where they were screened. You will receive a call back confirming the address for mailing the record, or if you prefer the record can be faxed to the school your child will be attending for kindergarten.
