

Screening Referrals and Follow Up

Any child who does not pass the initial and/or rescreening process is referred for further medical evaluation by a doctor or medical professional. A Referral and Physician Fax Form will be sent home. Please take the fax form to your child's appointment, your doctor's office will fax the form back to the Health Department. We are required to follow up with you regarding the outcome of your child's exam by the Michigan Department of Health and Human Services.

You can also call us with your child's results. We always send reminder letters when we do not receive follow up after a referral. **Contacting us with your child's results allows us to close your child's hearing or vision record.**
